**HEART TROUBLE.**

Pope's Health Worse Than Has Been Admitted.

New York, May 29.—The Evening Sun has the following cable from Brussels:

Private letters from Rome say that it is learned from an authoritative source that the condition of the Pope's health is far worse than is admitted by the Vatican. He is suffering from a grave heart affection, as well as from acute attacks of asthma and gout.

Cardinal Mercier del Val, the papal secretary of state, is trying to keep the pontiff's real condition a secret, but the fact is known that he cannot stand confinement to the Vatican, which is slowly killing him.

**SHOT TO DEATH.**

North Carolina Murderer Strung to Tree by Angry Mob.

Raleigh, N. C., May 29.—A special to the Evening Times from Wadsworth, N. C., says:

Yesterday morning about 9 o'clock, a mob of some 200 citizens, after having knocked insensible Sheriff Boggs, battered down the doors to the county jail and secured J. V. Johnson, who some time ago murdered his brother-in-law, Quinn Johnson. The prisoner was taken out into the suburbs where he was strung up to a tree and his body riddled with bullets.

Gov. Glenn has instructed Judge Shaw to proceed at once to Wadsworth and make a rigid investigation.

**Three Sailors Lost.**

**C. H. KENDRICK & CO. HAVE A NEW CIGAR**

**Wadsworth Brothers' Chico, Which Sells Like Wild Fire.**

Kendrick & Co. have recently introduced a new brand of cigars—Wadsworth Bros' Chico. In size and quality they are the style of a ten-cent cigar, but retail at five cents straight.

Their aim is to give the smokers of Barre the best goods possible, and they believe that in pushing and recommending the Chicos they have done a good thing for people who like a good cigar at a reasonable price.

The Chicos are made from a long, clear Havana filler and burn with a solid ash. In flavor and fragrance they cannot be told from cigars that retail at ten and fifteen cents. The fact that they are today the favorite smoke of the most fastidious trade, people who heretofore smoked nothing but ten and fifteen-cent cigars, shows that this is true.

"Horrible" is the word used by those officials and members of congress to describe the revelations contained in Neil's data. It is declared the country would stand agast if it knew the facts as to the reign of filth and disease in the Chicago packing district.

**BEEF MEN CRUSHED****Cannot Prevent Passage Of Bill Calling for Investigation****CONGRESSMEN HORRIFIED**

A Glance at the Report of Neill and Reynolds Kills Off All Opposition to the Measure.

Washington, May 29.—With all opposition helpless and nearly crushed out by the merciless use of the "big stick," the President will push through Congress the Beverage measure calling for inspection of all meats and meat products in interstate and foreign commerce.

The President conferred yesterday with Labor Commissioner Neill and Senator Carter, the latter representing live stock interests. Later Senator Carter gave out a statement showing that regardless of the opposition of the packers the President was determined to stand pat and have the Beverage measure made law in the most drastic form practicable.

The President still adheres to his position that, unless the Beverage measure passes in effective form, so that the terrible sanctions in the packing business can be remedied by law, he will make the Neill and Reynolds report public. He is deterred from doing so because he does not want to hurt stockmen's interest and not from regard for the big beef packers. Senator Carter indicated that the bill would not even be changed as the packers desire, so as to have the government pay the cost of inspection.

Speaker Cannon has been shown the data Mr. Neill has, and is horrified. He will join in the movement to jam the bill through, and there is little doubt that it will go through. Not only does the President have the data from the Neill and Reynolds investigation, but also a report of the agents of the Bureau of Animal Industry.

These agents reported first and disclosed such shocking conditions that they were just believed by the President. So Neill and James R. Reynolds of New York were sent out. It is learned that Neill has facts to show the city inspection of Chicago is defective.

It is declared that most of the beef condemned on the hoof is palmed off on the people of Chicago. Neill, while in Chicago, had plotters of affidavits by the score from people about the packing region, familiar with conditions. He declined many of these, and they will be used, it is said here, by Captain Sinclair, author of "The Jungle," that aroused the President's interest in packing conditions.

While Democrats are talking of forcing the President to disclose the facts in his possession, it is said by Senator Carter and other Republicans it is unlikely that they will be able to do this.

Neill and Reynolds are busily writing out their reports, which have not been written hitherto, for use, if necessary, on short notice.

"Horrible" is the word used by those officials and members of congress to describe the revelations contained in Neill's data. It is declared the country would stand agast if it knew the facts as to the reign of filth and disease in the Chicago packing district.

**DEADLOCK ON CANAL.**

Senators Favor Sea Level, House and President Lock Plan.

Washington, May 29.—There is growing alarm in administration and House circles over the sea level canal question. The Senate is showing a disposition to pass the sea level measure, and while the President and the House will hold out for a lock canal they fear the effect of leaving the matter hung with the two houses. A deadlock on the question will tend to hang up and hinder canal work.

House leaders have determined not to pass on the question of canal type this session if they can prevent it, but realize they will be in an embarrassing position if the Senate puts a sea level bill up to them.

**REPEATS TARIFF DECISION.**

Fuller Delivers Opinion on the Philippine Cases.

Washington, May 29.—The Supreme Court of the United States yesterday reiterated its decision of last term in the Philippine tariff cases of Warner, Barnes & Co., and Frederic W. Lincoln, involving the validity of tariff collections in the Philippine Islands under the executive order of 1898. The opinion was delivered by Chief Justice Fuller. The cases involve about \$4,000,000.

**"NO CURE, NO PAY"**

How Rickert & Wells Sell Hyomei, the Guaranteed Cure for Catarrh.

Rickert & Wells have an unusual offer to make to our readers, one that will be of the greatest value to many.

For some years they have been watching the results from the use of Hyomei, a treatment for catarrh that cures by breathing medicated air, absolutely without any stomach dosing. The results have been so universally successful that they feel justified in making a public offer to treat the worst case of catarrh in Barre with the understanding that if Hyomei does not cure, the treatment will cost absolutely nothing.

People who have spent large sums with catarrh specialists, deriving but little benefit, or the many who have swallowed stomach remedies in the hope of curing catarrh, have experienced almost immediate relief from the use of Hyomei, while the continued treatment for a short time has resulted in a complete and lasting cure.

The regular Hyomei outfit costs only one dollar, and consists of a neat pocket inhaler that can be carried in the purse or vest-pocket, a medicine dropper and a bottle of Hyomei. If this is not enough for a cure, extra bottles of Hyomei can be obtained for 50 cents.

Rickert & Wells positively guarantee a cure if Hyomei is used in accordance with directions, or they will refund the money.
